PROJECTS

'Live' links may take up to 30 seconds to load due to server startup

Esports Delight [Work in Progress] | [Repo](#) | [Live](#)

April 2023

React, JavaScript, Tailwind, PostgreSQL, NodeJS, Express

- Developed an online news platform dedicated to esports aficionados by utilizing the PERN stack
- Optimized user experience by managing website content and publishing new news articles and tournaments
- Secure user information and ensure safe browsing experience by implementing JWT authentication

Sous Chef | [Repo](#) | [Live](#)

March 2023

React, JavaScript, CSS, PostgreSQL, NodeJS, Express

- Collaborated with a team of three to develop a user-generated recipe platform with JWT Authentication to enable users to explore, create, and share recipes with others
- Designed and implemented a user-friendly interface that allows users to easily navigate and discover a wide range of culinary delights
- Leveraged Figma to design an intuitive and visually appealing interface for the website

Horizon Travel | [Repo](#) | [Live](#)

February 2023

React, JavaScript, CSS, PostgreSQL, NodeJS, Express

- Developed a user-friendly web application that enables users to create a personalized travel itinerary by selecting destinations and activities
- Incorporated Pexels' API to enable searching using their photo database.

Vaca(n)ation | [Repo](#) | [Live](#)

February 2023

React, JavaScript, CSS, MongoDB, NodeJS, Express

- Formulated an informational web platform that provides users with insights into abandoned roller coasters
- Promoted a culture of openness and collaboration among a team of three, resulting in enhanced project outcomes

BlackJack | [Repo](#) | [Live](#)

January 2023

HTML, CSS, JavaScript

- Implement blackjack game logic with JavaScript, use event handlers to track player actions, update game state and incorporate betting options for an entertaining gameplay experience

WORK EXPERIENCE

GRM Document Management

July 2021 – October 2022

Lithia Springs, GA

- Synchronized and uploaded more than 10,000 files on a weekly basis using secure databases and cloud servers
- Identified and resolved software and hardware issues, implementing effective solutions
- Maintain electronic records of documents in compliance with the client's scope of work

Cenveo

September 2019 – July 2021

Smyrna, GA

- Monitored production machinery and recorded key performance metrics to analyze and ensure maximum efficiency while minimizing downtime
- Refined attention to detail, adeptly detecting and resolving issues like machine jams to maintain steady production targets
- Enhanced the accuracy of daily production reports by meticulously completing all required paperwork with a strong focus on efficiency and timeliness.

EDUCATION

General Assembly

January 2023 – April 2023

Full Stack Development Bootcamp

Remote
